PROFESSIONAL SUMMARY

Detail-oriented B.Tech Electronics and Instrumentation Engineering Fourth-year student with solid technical expertise in full-stack web development. Proficient in JavaScript (ES6+), React.js, Next.js, Python, and SQLite, with hands-on experience architecting responsive web apps, REST APIs, and automated data scraper pipelines. Proven ability to build user-friendly, high-performance web applications and academic result dashboards. Passionate about clean code, modern web standards, and scalable solutions. Seeking an entry-level Web Developer / Software Engineer position.

EDUCATION

Bundelkhand University (IET), Jhansi

Present – Fourth Year

Bachelor of Technology, Electronics and Instrumentation Engineering (SGPA: 8.0/10)

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, SQL (SQLite, MySQL), HTML5, CSS3

Frameworks & Libraries: React.js, Next.js 14, Node.js (Basics), Tailwind CSS, Bootstrap

Developer Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel, npm

Core Competencies: RESTful APIs, Responsive Web Design, Web Scraping, DOM Manipulation, Data Analytics

NOTABLE PROJECTS

BU Result Hub | *Next.js, Python, Tailwind CSS, Scraper* – [GitHub](#) | [Live Demo](#)

Aug 2026

- Architected a centralized academic analytics portal for Bundelkhand University covering all 7 B.Tech branches.
- Engineered an automated Python scraper pipeline using BeautifulSoup to parse gazette marksheets and index 150+ student records.
- Implemented instant roll-number search, branch-wise leaderboards, student comparison tools, and interactive CGPA analytics.

Innovation & Automation Club (IAC) | *Frontend Web Development* – [GitHub](#) | [Live Demo](#)

Aug 2026

- Designed and developed the official web platform for Innovation & Automation Club (IAC), IET Bundelkhand University.
- Implemented responsive UI for event announcements, student registration workflows, and core team member profiles.
- Optimized asset loading, mobile viewport responsiveness, and cross-browser accessibility.

WanderLust | *Full Stack Booking Platform* – [Live Demo](#)

2025

- Developed a full-stack accommodation booking web application utilizing React.js, Node.js, Express, and MongoDB.
- Implemented secure user authentication (JWT/Sessions) and REST API endpoints for property listings and user reviews.
- Integrated payment simulation workflows and managed complete version control and continuous deployment with Git.

PRACTICE & FRONTEND PROJECTS

Birthday Wish Generator – [Live Demo](#)

Mar 2025 – Apr 2025

- Built an interactive greeting application with custom name inputs, dynamic DOM rendering, and personalized animations.

Food Ordering Website – [Live Demo](#)

May 2025 – Jun 2025

- Engineered a modern restaurant web interface with intuitive menu navigation, cart state handling, and responsive layout.

Top Engineering Colleges Search – [Live Demo](#)

Jul 2025 – Aug 2025

- Created a search-driven web app with instant keyword filtering algorithms to dynamically query top college data.

Demon Slayer Themed Web Experience – [Live Demo](#)

Sep 2025 – Oct 2025

- Constructed an anime-themed visual web app featuring custom CSS scroll-based parallax animations and transitions.

CERTIFICATIONS

- **Static Website Development:** Semantic HTML5 markup, modern CSS3 styling, and web layouts | [View Certificate](#)
- **Responsive Web Design:** Mobile-first UI architecture, CSS Flexbox, Grid system, and Bootstrap | [View Certificate](#)
- **Programming with Python:** Core Python programming, data structures, algorithms, and scripting | [View Certificate](#)
- **Database Management with SQLite:** SQL query authoring, relational schema modeling, and indexing | [View Certificate](#)
